TOWN JOURNAL

At the town meeting, the vote for selectman resulted in a tie between Harold Farrow and Chester Russell. With the consent of both candidates and in accordance with the state law, the town clerk broke the tie by drawing the name of Harold Farrow for selectman.

The most severe drought in many years began in the summer and continued through the fall months into early November. The fire truck was used for many weeks to carry water to wells which were dry.

Through the combined efforts of the Improvement Association and the Recreational Committee, the town received \$2,000.00 on a matching basis from the Spaulding Potter Charitable Foundation. It is stipulated that the money be used for permanent improvements in the town in a reasonable length of time.

The July Whing Ding drew an attendance of about 4,000 and netted a profit of \$1,849.00. The celebration opened with a dance on the evening of the 3rd. Activities on the 4th included a parade of about 30 units, a carnival on the common and booths for money making projects by numerous town organizations, a chicken barbecue at noon, an auction, an entertainment by a jazz band, a supper and fireworks. In the afternoon a helicopter arrived with a flag which had flown over the National Capitol and which will be displayed in the town hall.

The Recreation Committee continued development of the school recreational area and purchased additional playground equipment. The Little League ball field was completed. The recreational program for young people continued as in previous years with a party or other activity each month.

At the State Park, rapid progress was made toward the opening in 1964. The following buildings were constructed: the main office building; the residence for the park manager; a shop building, a combination building for bath house and dressing rooms; a refreshment stand; 11 toilet buildings. The road system, which will consist of four miles of black top and four miles of gravel surfaced roads, was nearly completed. Additional parking areas were built and camping areas were prepared. The existing beach for use of the campers was improved and the day-use beach was much enlarged.

At the Crotched Mountain Rehabilitation Center, all services for physically handicapped children were expanded. Enrollment in the School for the Deaf increased to 86. The teaching program reached a new peak. 173 students completed

their training in various specialties of rehabilitation with a month's intensive work at the Center. Two new dormitories were built to accommodate these students. A pilot program for the education of physically handicapped children of the state was initiated.

Approximately 100 feet of shore front at Sunset Lake was purchased by the town to extend the public beach.

The town accepted as an approved, town-maintained road, the former private road known as Lake View Circle, located off the Zephyr Lake Road. Class Five road was built from the railroad crossing at the grain mill to the Zephyr Lake Road.

The town bought a new four-ton dump truck.

The Congregational Church engaged Mr. Frank W. Sherman as minister.

Roger Joslin began his tour of duty in the United States Army.

John T. Robertson, Jr., received a Bachelor of Science degree from the University of New Hampshire.

Steven Robertson received the Hillsboro County 4-H Achievement Award as the most outstanding 4-H member in Hillsboro County.

Charles Blanchard's house was destroyed by fire.

A new house was built by Harold Farrow. An apartment was finished for Ralph Russell in the building which houses his trucks. At Camp Union, the older boys built a split-log cabin for a recreational lodge. E. C. and W. L. Hopkins, Inc., feed manufacturers, installed two additional steel bins of 20 tons capacity each.

Wells were drilled for the following: Perley N. Blanchard, 127 feet; E. C. & W. L. Hopkins, Inc., 110 feet; John H. Field, Jr., 170 feet; Helen Herrick, 105 feet; Robert Stanley, 257 feet.

The following real estate, which included buildings, was transferred: Charles Amon, Jr. to Helen Herrick; Boston & Maine Railroad to E. C. & W. L. Hopkins, Inc.; Carlyle and Mildred Burland to Hugh and Grace Parsons; John and Anna Chute to John and Marie Delay; Gardiner and Doris Conley to Albert Antures; Lincoln and Florence Fitts to Raymond and Norma Anderson; Richard M. Gorham to Peterborough Sav-

ings Bank; Mary Hunt Home to Daniel and Muriel Paro; Peterborough Savings Bank to Eva Gagnon; Peterborough Savings Bank to Leonard Hadley; Anna Reynolds to Mary Hunt Home; Ben Sanford to John Necco, 3rd; Marjorie Sobel to Barbara and Robert Graham.

The following town organizations were active: Boy Scouts, Cub Scouts, Girl Scouts, Brownies, Boys' 4-H Live Stock Club, Couples' Club, Firemen, Grange, Improvement Association, Little League Baseball team, Monadnock Hospital Aid, Parent-Teachers Club, Stitch and Chatter, Woman's Club, and Women's Fellowship.

SELECTMEN'S REPORT

During 1963 the Parking Lots were blacktopped and appear to meet the need for the present time. The waterpipe from the school to the Town Hall was lowered under Bennington Road to prevent future freezing, eventually a new pipe will have to be laid across the Common to the Town Hall as the present one is very badly rusted. The metal bulkhead has been installed on the south side of the Town Hall basement and basement entrances painted with fireproof paint. Slip Road was blacktopped from the railroad crossing to Zephyr Lake Road. A new International truck was purchased for the Highway Department and land at Sunset Lake for recreational purposes. We wish to thank all those who helped to keep this area in fine condition and were interested in the welfare of the children.

Parking Regulations were written and approved by the State Highway Department as most of the restricted areas were on the State Roads. Signs regulating parking have been installed in the village. All night parking is prohibited on all town roads from November 15 to April 15 to facilitate plowing. The Road Agent is authorized to notify the Chief of Police of any violation of this ruling and towing charges are to be paid by the owner of the vehicle.

A balance in the School District Account made it possible to reduce the Tax Rate but in 1964 there will be an increase due to a larger School Budget caused by the increase in Tuition Rates at Peterborough and a larger number of children requiring transportation.

Again we want to stress the return of Inventories. It is most important that they be made out COMPLETELY as to buying, selling, building additions or remodelling and new installations. This is the only means of acquiring information for computing the value of property. It has been found that changes have been made and no notification of them given. Although this means an increase in taxes for the owner yet it also means a reduction in the overall taxes. The greater the property value to the expenditures means a lower rate.

The Town appropriated \$125.00 for White Pine Blister Rust Control. Over 1600 acres were inspected during the summer and over 1300 wild currant and gooseberry bushes were destroyed. One can realize what a concentration of these bushes in a few acres of pine growth would mean. If this same appropriation is made in 1964, the Forestry Department has agreed to notify us when they are coming and any who wish to observe how this work is done are invited to accompany the men.

For the past 35 years or more the Selectmen have placed the flags and geraniums on the graves of our Veterans for Memorial Day. It would seem more patriotic if some organization of the Town would assume this responsibility.

Price of new truck \$6,804.00 with trade in of old truck and discounts the sum of \$5,000.00 will be the net cost of new truck. Dean Russell agent of the roads reported that if they kept the old truck it would be more expensive than hiring extra truck. Competitive bidding suggested on buying truck—Amendment to motion to purchase truck—a period of four years to be taken in paying for truck. Vote on amendment only—standing vote 88 yes—15 no. Vote on the complete motion to purchase truck—standing vote 70 yes—37 no, therefore a new truck to be purchased for the highway department.

Art. 10. Motion moved and seconded to accept (as an approved town maintained road) Lakeview Circle located off Zephyr Lake Road. Dean Russell, road agent suggested that a study should be made of this road, and a more clear picture of this road be presented to the people at next year's town meeting; he didn't consider this road to be in the proper condition to be accepted at this time. Ben Sanford owner of the road stated quote "It was in good condition and would meet all requirements needed to be an approved road". A standing vote taken 61 voted yes—17 voted no—therefore this road is accepted as presented.

Mr. Clarke refused to do so. Mr. Shea was asked if he would take less than \$3,000.00 for this property. Mr. Shea replied that he had the land appraised and the \$3,000.00 was a fair price. President of the Recreation Committee, F. Daniel Paro approved the purchase. President of the Improvement Association, Arthur Blanchard approved the purchase. Anna Chute announced that she put the article in the warrant. Motion put to vote to pass over the article (Voted no not to pass over the article.)

REPORT OF THE FOREST FIRE WARDEN AND YOUR DISTRICT CHIEF

During the past year New Hampshire faced the greatest forest fire threat to its woodlands in more than sixty years. The continued drought brought home to our citizens, as never before, the potential threat of destructive fires to their beautiful and valuable forests, homes and livelihood. In true American tradition of meeting a common threat by volunteer effort, this fire danger was minimized by active prevention, patrol and a relinquishing of personal rights for the common good. It was the greatest demonstration of public cooperation ever experienced by those responsible for local and state fire control. The ready forces of volunteer fire services kept the losses low. For their effort and public response the general fire service expresses its heartfelt thanks for a job well done.

Prevention however, is not just an activity for the bad fire years. It must be practiced until it becomes a part of our public conscience—a habit. Just plain carelessness with fire causes too many of our fires.

The following practices and suggestions will help:

1. Always have a permit for outdoor burning and burn within the terms of the permit and in a safe place. Burn late in the afternoon when the wind is down or on rainy or damp days. Check your fire and if winds develop extinguish it promptly.
2. Carry your rubbish to the public dump—its safer. A neglected backyard incinerator causes many fires.
3. Never discard lighted cigarette or match. Make this a year round habit regardless of the safety of your surroundings.
4. Children caused fires are now a major concern. Keep matches away from them and teach them to respect fire and not make it a subject of play.

Let's all join with "Smokey the Bear" and "Keep New Hampshire Green" and growing in 1964.

SUPERINTENDENT'S REPORT

To the School Board and citizens of Greenfield, I respectfully submit my sixth annual report as your superintendent of schools.

STAFF AND INSTRUCTION

The Greenfield Public School opened this fall with two changes in the teaching staff. Mr. David Paige of Goffstown, New Hampshire was hired to replace Mrs. Florence Stiff as Music Supervisor. Mrs. Gladys Menard of Wilton, New Hampshire was hired to replace Mrs. Norma Verhey as teacher in grades three and four.

The two areas of instruction that were emphasized as major educational goals as outlined in last year's report are being expanded and improved upon during this year's instructional program. The highly phonetic approach to reading is being carried out this year even by Mrs. Menard who is new to the system, and the staff, and it is felt that excellent progress is being made to strengthen these important areas of reading, writing and spelling.

In the area of mathematics, the program which was started last year in the first and second grades has now been expanded to include grades one through six. This program is very demanding of teachers and of children and it is expected that as the program continues over the next several years, children will be working at levels in mathematics which one would not have possibly expected in years past.

Mr. Metivier continues to carry out a very effective science program for the children of his room, performing innumerable experiments that make science interesting and stimulating to children.

BUILDING AND GROUNDS

Some minor improvements have been made in the building and in the grounds through the efforts of the citizens of the town and also the school district. Citizens of the town have cooperated with Mr. Metivier to an unusual extent and thus a new piece of playground equipment, a merry-go-round, has been added to the playground facilities. A tether ball has also been installed by the pupils and Mr. Metivier, to the joy of many children. In the school proper, the front hallway has been cleared of the old lockers that never proved particularly satisfactory and the floor has been sanded and refinished, to brighten up the entrance-way of the school building. In the coming year it is contemplated to add some additional chair and desk units to the school to replace some of the old oak units that have probably been there for forty or fifty years. It is hoped this year to paint the kitchen, something that has not been done for six or seven years at least. Additional folding chairs in the auditorium are also being planned for so that for gatherings in

the hall, no folding chairs would have to be brought in from the town hall. Two chair racks are also being purchased to make proper provision for storing the chairs, thus reducing damage.

FUTURE NEEDS

The School Board is a bit concerned about the kind of education being provided children in the elementary school. The multiple graded classroom has several serious disadvantages. Because of this feeling there have been some discussions with other towns in this vicinity that have similar types of schools and similar types of problems, to see if it might not be possible to mutually solve the problems of all of these communities. It is not known now whether a formal type of mutual assistance program will be developed amongst area towns, but it does seem advisable to make all parents aware of the physical limitations of the Greenfield educational program. All those interested in proper education of children should look forward to the day when children of Greenfield are taught in single graded classrooms. Only then will it be possible to honestly say that the best type of education is being provided for Greenfield children.

FINANCE

There are only two areas of appreciable increase in the budget; one in the area of teachers' salaries and the other in the area of tuitions. The increase in teachers' salaries is a very moderate one, and well below the State average for increases, especially for increases that teachers are receiving in the southern part of New Hampshire. When one considers that teachers of our school staff are teaching multiple graded classrooms, the need for these increases is even more markedly evident.

The seeking out of new teachers during this past year has been extremely difficult; the supply of people available continues to dry up, making the possible candidates fewer and farther between. Practically no teachers coming out of Keene State College or Plymouth State College are interested in working in a school with multiple graded rooms and only in a very few instances has it been possible to hire such people in the union. These have been cases where other factors have made such hiring possible.

In the area of tuitions, there is a sizeable increase of about \$3500., this is brought about by two factors — an increase in the number of youngsters that are attending junior high and high school, and an increase in the tuition costs at Peterborough from about \$464 for the present year to about \$480 for the coming school year. In addition, Peterborough will have an approved junior high school for tuition purposes during the coming year which means that the cost of tuition will be in the vicinity of \$412. per pupil whereas in this present

school year the tuition cost is the elementary tuition average which is \$295. per pupil. In addition to these increases, provision is being made within the budget for the education of children in our school who could benefit from participation in a special class for intellectually retarded children. The total effect of these various increases combined with other increases and decreases results in a total amount required to meet the School Board's Budget of \$61,236.76 which is approximately \$4200. over that which was raised last year.

The unusual balance which was on hand in June '63 and helped measureably to reduce the school board's assessment for the operation of schools during the present year was accumulated through a variety of factors. First, there was a balance of approximately \$4000. in the '62-'63 budget primarily in the areas of transportation, heat and tuition. Second, at the special district meeting on October 30, 1961 it was voted that \$4500. be provided for an additional teacher's salary. This amount was raised by the Town of Greenfield to support the district in their action but since this amount was not a school assessment at the time that assessments were made in Greenfield, the money had to be raised in the following school year. In 1962-'63 therefore an additional assessment of \$4500. was charged to the school. At the end of the past school year, June 1963, the additional assessment which was raised as a school district assessment, but not within the operative budget showed up as a balance. This \$4500. with the \$4000. already noted makes up the total balance on hand at the end of the past school year of some \$8500.

CONCLUSION

I want to thank the teachers of the school for the exceptional effort that they have made this year in providing proper instructional program for the children and also the time and effort given by the two members of the Greenfield School Board in the interests of the children of Greenfield. Their cooperation has made possible the very satisfactory program which has been offered during this current year.

Respectfully submitted,
KENNETH A. SARGENT
